FOSTER/ADOPTION REQUIREMENTS

Because we put a lot of time and resources into healing and helping our horses (and we value the donor dollars that fund our rescue) we do all we can to ensure healthy, safe, permanent homes for our rescues.

A few basic guidelines:

- Be prepared to invest time and money into your new horse. Horses are very rewarding but can be expensive.
- You must be 18 years of age to adopt.
 - If you are a parent adopting a horse for your child we welcome you and simply ask that you perform all adoption steps and communicate with us.
- By policy, we do not place 'holds' on horses, the first qualified and prepared applicant will be approved for a 6 month foster program prior to adoption finalization.
- We're looking for permanent placements. We do not adopt horses for the purposes of breeding and/or resale and our adopters sign a contract agreeing not to take the horse to auction.
- We ask that horses go to a home with regular pasture/paddock turnout, safe fencing, and a hazard free man made shelter (trees don't count).
- We cannot let our rescues go to a new home with
 - barb wire
 - debris or unsafe items in pasture
 - a lack of adequate shelter
- We appreciate donations but we are unable to accept trades for our rescues (in lieu of paying an adoption fee).
- We prefer cash or money order for adoption fee, but will accept PayPal (PayPal fees will be added to adoption cost).
- We may be able to deliver for a fee of \$3 per mile to cover our mileage expenses, due prior to transport.
